

The students and teachers really enjoyed the presentations and felt that the message was meaningful and very powerful.

I especially love that Errol is able to connect his theme to the story he reads and then magically weaves connections to virtues and catholic values.

Teaching and including sign language throughout the presentation is amazing. It is inclusive and let's students see that we have lots of ways to communicate with each other.

Errol's calm disposition comes through beautifully. He discusses challenging topics in ways that are simple for students to understand.

Overall, we really loved this experience!
