To whom it may concern:

For the past eighteen years, I have worked as a producer, recording engineer and mixing engineer for Errol Lee. During this time I have had a chance to get to know Errol [and his work through his Caring Concerts] very well.

While Errol Lee excels as a talented musician and a prolific songwriter, he sets himself apart from scores of similar entertainers because of the focus of his message. His belief in unity and respect for all peoples and his active stand against racism and bullying is unique in the Canadian music scene. Errol deftly integrates motivational messages with great RnB, hip hop and pop music. His live presentations in Ontario schools and communities is frankly, unrivalled. The youth of our world need great music, but they also need clear direction and positive reinforcement. Errol Lee delivers at the highest level in all of these areas.

The impact of Errol Lee's presence and music in the Ontario school systems and communities is immeasurable. May the work of Caring Concerts continue to grow.

Best Regards,

Douglas Romanow
Producer/Engineer
